

High Performance Industrial Identification / Safety Identification

B-580 Indoor/Outdoor Vinyl:

- Brady's indoor/outdoor grade vinyl tape adheres well to pipes, walls, equipment, windows – most clean, dry surfaces.
- Conforms well to irregular, curved or rough surfaces – it even stands up to grease, oil and most industrial chemicals.
- Five year average outdoor durability in temperatures from 82°C to -40°C, can be applied as low as -18°C.

General and Industrial Identification Labels

Repositionable Labels

• B-581 Repositionable Vinyl:

- Special adhesive allows easy removal of label to re-apply again and again.
- Best choice for indoor marking where frequent repositioning is required, such as shelves.

Applying Self-laminating Labels

Apply the printed area to your wire.

Wrap the clear area around the wire, covering the printed area.

Once applied the clear laminate will protect your legend for years to come.

Ademark Tag Carrier

Ademark carriers are produced in transparent PVC. The special shape of the carrier means that it can be adapted to cables of various diameters. This means that there are only seven different sizes of carriers which cater for cables with external diameters from 1.3 mm up to 24 mm.

- Temperature range: -40° to 60°C
- Material: PVC
- Self extinguishing: UL94V0

TubeSleeve Carriers

Brady TubeSleeve Carriers are the ideal complement to self-laminating labels, where the cables are thin and available space for text is small. Apply the tubesleeve to the cable and then apply the self-lam. The limited available space is increased significantly, giving you the possibility of printing more text.
